# ZEBRA BARCODE PRINTERS

## GC 420 – 203dpi

Zebra's GC420t is durable and reliable perfomer to many low to medium volume direct thermal and thermal transfer printing applications. IT truly shines with an easy to open clamshell design and colour touch points. It requires minimal operator traing to keep the businesses running.

## SPECIFICATIONS

Resolution 203 dpi/8 dots per mm

Memory 8 mb flash, 8 mb sdram (standard)

Print width 4.09"/104 mm

Print length 39"/990 mm

## ZM400

Zebra's best in class Z series printer. The ZM400 includes additional productivity-enhancing features and modern flexible network connectivity for easy system integration in most manufacturing warehousing and business applications

## SPECIFICATIONS

203 dpi print resolution (8 dots/mm)

Thin film print head with E3$^®$ Element Energy Control

Thermal transfer and direct thermal printing of bar codes, text, and graphics

ZPL$^®$ or ZPL II$^®$ programming language, selectable through software or front panel

32 bit high speed processor

## TSC BARCODE PRINTERS

## TSC TTP- 244 203DPI

TSC's bestselling TTP-244 Plus barcode printer just got even better with the new TTP-244 Pro. The popular TTP-244 Plus thermal transfer desktop printer is known as the only inexpensive solution that offers a powerful processor, generous memory, internal scalable fonts and the world's most popular barcode printer language emulations in one small package. The TTP-244 Pro is now 25% faster, printing at speeds up to 5 inches per second. The TTP-244 Pro is ideal for customers looking for a high quality barcode printer, coupled with low ownership costs. The TTP-244 Pro is competitively priced, comes with a two-year warranty, and accommodates a 300-meter-long ribbon, which keeps both daily and lifetime operating costs lower than other comparable printers. TTP-244 Pro is ideal for customers looking for a high quality barcode printer

### SPECIFICATIONS

Physical : 232 mm (W) x 156 mm (H) x 288 mm (D)
9.13" (W) x 6.14" (H) x 11.34" (D)

Weight: 2.5 kg

# TSC TTP 345 300DPI

The TTP-345 is used to create self-adhesive labels for plastic bags containing individually packed smaller components. Each 80 mm x 40 mm label contains a product barcode, component name and designation, item quantity and company data. Printed at 300 dpi, the high-resolution image is easily readable by the human eye and by a barcode scanner. Address labels, which have dimensions of 80 mm x 100 mm, are printed with the TTP-243E Pro. And TSC's high-performance industrial ME240 printer is used to create DIN A5 format labels, which are affixed to sample boxes

## SPECIFICATIONS

Up to 177.8 mm (7") per sec. print speed
User-friendly clamshell design
Label gap sensor & full-range adjustable black mark sensor
Parallel, serial & USB 2.0 interfaces standard
